

# SALESFORCE COMMUNITY QUICK REFERENCE GUIDE

## Customizing your user profile

### 1. Community User Profile

- Add a profile picture and update the about me section.
- View your followers, how many people you are following you, the number of posts you've made, and the comments and likes you've received in the **Influence section**.
- Receive points which shows your involvement in the community.

### Community User Profile

### 2. Personalizing Your Notifications

All email notifications are customizable!

**\*Note-If Email Notifications is deselected, you will not receive emails. When Email Notifications is selected, you will only receive notifications for the specific options you have selected. If you enable it, you can customize what type of emails you receive.**
